

# CO2-neutral Gas

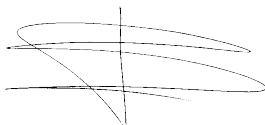

Hereby we confirm that

## Adolf Föhl GmbH & Co KG

purchased 4.500 MWh **CO2-compensated gas**.

All emissions connected with the consumption of natural gas are being offset by certified climate protection projects.

The supported projects are officially registered and audited annually by independent certifying bodies. With the redemption of CO2-certificates it is proven that all emissions from the 2021 natural gas delivery were compensated.
